Figure 1 consists of three panels, each showing a dot plot of the number of children per woman. The x-axis for all panels is labeled 'Number of children' and ranges from 0 to 10. The y-axis is labeled 'Number of women'.

- Top Panel:** Shows the observed distribution. The dots are arranged in a way that suggests a higher frequency of 0 children compared to the expected distribution.
- Middle Panel:** Shows the expected distribution under the null hypothesis. The dots are arranged in a way that suggests a more uniform distribution across the number of children.
- Bottom Panel:** Shows the observed distribution with a different scale. The dots are arranged in a way that suggests a higher frequency of 0 children compared to the expected distribution.
